

# ANALYTICAL REPORT

## PREPARED FOR

Attn: Mr. Kirk Moline  
CT Male Associates DPC  
50 Century Hill Dr  
Latham, New York 12110

Generated 6/9/2023 4:38:45 PM

## JOB DESCRIPTION

Hoosick Falls WTP  
SDG NUMBER HOO

## JOB NUMBER

410-124754-1

# Eurofins Lancaster Laboratories Environment Testing, LLC

## Job Notes

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

Analytical test results meet all requirements of the associated regulatory program (i.e., NELAC (TNI), DoD, and ISO 17025) unless otherwise noted under the individual analysis.

## Authorization

### Qualifiers

#### LCMS

| Qualifier | Qualifier Description                                                                                          |
|-----------|----------------------------------------------------------------------------------------------------------------|
| *+        | LCS and/or LCSD is outside acceptance limits, high biased.                                                     |
| cn        | Refer to Case Narrative for further detail                                                                     |
| E         | Result exceeded calibration range.                                                                             |
| J         | Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value. |
| U         | Indicates the analyte was analyzed for but not detected.                                                       |

### Glossary

| Abbreviation   | These commonly used abbreviations may or may not be present in this report.                                 |
|----------------|-------------------------------------------------------------------------------------------------------------|
| □              | Listed under the "D" column to designate that the result is reported on a dry weight basis                  |
| %R             | Percent Recovery                                                                                            |
| CFL            | Contains Free Liquid                                                                                        |
| CFU            | Colony Forming Unit                                                                                         |
| CNF            | Contains No Free Liquid                                                                                     |
| DER            | Duplicate Error Ratio (normalized absolute difference)                                                      |
| Dil Fac        | Dilution Factor                                                                                             |
| DL             | Detection Limit (DoD/DOE)                                                                                   |
| DL, RA, RE, IN | Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample |
| DLC            | Decision Level Concentration (Radiochemistry)                                                               |
| EDL            | Estimated Detection Limit (Dioxin)                                                                          |
| LOD            | Limit of Detection (DoD/DOE)                                                                                |
| LOQ            | Limit of Quantitation (DoD/DOE)                                                                             |
| MCL            | EPA recommended "Maximum Contaminant Level"                                                                 |
| MDA            | Minimum Detectable Activity (Radiochemistry)                                                                |
| MDC            | Minimum Detectable Concentration (Radiochemistry)                                                           |
| MDL            | Method Detection Limit                                                                                      |
| ML             | Minimum Level (Dioxin)                                                                                      |
| MPN            | Most Probable Number                                                                                        |
| MQL            | Method Quantitation Limit                                                                                   |
| NC             | Not Calculated                                                                                              |
| ND             | Not Detected at the reporting limit (or MDL or EDL if shown)                                                |
| NEG            | Negative / Absent                                                                                           |
| POS            | Positive / Present                                                                                          |
| PQL            | Practical Quantitation Limit                                                                                |
| PRES           | Presumptive                                                                                                 |
| QC             | Quality Control                                                                                             |
| RER            | Relative Error Ratio (Radiochemistry)                                                                       |
| RL             | Reporting Limit or Requested Limit (Radiochemistry)                                                         |
| RPD            | Relative Percent Difference, a measure of the relative difference between two points                        |
| TEF            | Toxicity Equivalent Factor (Dioxin)                                                                         |
| TEQ            | Toxicity Equivalent Quotient (Dioxin)                                                                       |
| TNTC           | Too Numerous To Count                                                                                       |

# Case Narrative

Client: CT Male Associates DPC  
Project/Site: Hoosick Falls WTP

Job ID: 410-124754-1  
SDG: HOO

**Job ID: 410-124754-1**

**Laboratory: Eurofins Lancaster Laboratories Environment Testing, LLC**

## Narrative

### Job Narrative 410-124754-1

#### Receipt

The samples were received on 4/29/2023 10:00 AM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 1.0°C

#### PFAS

Method 537\_DW: The recovery for the following target compound(s): Perfluorotetradecanoic acid in the laboratory control samples associated with the following samples: GAC INFLUENT (410-124754-1), GAC MIDFLUENT (410-124754-2), GAC EFFLUENT (410-124754-3), PV-01\_25 (410-124754-4), PV-01\_50 (410-124754-5), PV-01\_75 (410-124754-6), FTB01-230427 (410-124754-7) and LTB01-230427 (410-124754-8) is outside of QC acceptance limits. Because the recovery is high, and the associated target compound(s) is not detected in the sample(s), the result(s) is reported.

Method PFC\_IDA: The recovery for target analyte 6:2 Fluorotelomer sulfonic acid is outside the QC acceptance limits in the closing continuing calibration verification standard. Since the result is high and target 6:2 Fluorotelomer sulfonic acid is not detected in the following samples: GAC INFLUENT (410-124754-1), GAC MIDFLUENT (410-124754-2) and GAC EFFLUENT (410-124754-3), the data is reported.

Method PFC\_IDA: The recovery for target analyte 6:2 Fluorotelomer sulfonic acid is outside the QC acceptance limits in the opening continuing calibration verification standard. Since the result is high and target 6:2 Fluorotelomer sulfonic acid is not detected in the following samples: PV-01\_25 (410-124754-4), PV-01\_50 (410-124754-5), PV-01\_75 (410-124754-6), FTB01-230427 (410-124754-7) and LTB01-230427 (410-124754-8), the data is reported.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

## Laboratory: Eurofins Lancaster Laboratories Environment Testing, LLC

Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below.

| Authority | Program | Identification Number | Expiration Date |
|-----------|---------|-----------------------|-----------------|
| New York  | NELAP   | 10670                 | 04-01-24        |

The following analytes are included in this report, but the laboratory is not certified by the governing authority. This list may include analytes for which the agency does not offer certification.

| Analysis Method | Prep Method | Matrix | Analyte                         |
|-----------------|-------------|--------|---------------------------------|
| 537 (Mod)       | SPE         | Water  | 6:2 Fluorotelomer sulfonic acid |
| 537 (Mod)       | SPE         | Water  | 8:2 Fluorotelomer sulfonic acid |
| 537 (Mod)       | SPE         | Water  | Perfluorobutanoic acid          |
| 537 (Mod)       | SPE         | Water  | Perfluorodecanesulfonic acid    |
| 537 (Mod)       | SPE         | Water  | Perfluoroheptanesulfonic acid   |
| 537 (Mod)       | SPE         | Water  | Perfluorooctanesulfonamide      |
| 537 (Mod)       | SPE         | Water  | Perfluoropentanoic acid         |

## Analysis Requested

### Preservation Codes:

A - HCL M - Hexane  
B - NaOH N - None  
C - Zn Acetate O - AsNaO2  
D - Nitric Acid P - Na2O4S  
E - NaHSO4 Q - Na2SO3  
F - MeOH R - Na2S2O3  
G - Amchlor S - H2SO4  
H - Ascorbic Acid T - TSP Dodecahydrate  
I - Ice U - Acetone  
J - DI Water V - MCAA  
K - EDTA W - pH 4-5  
L - EDA Y - Trizma  
Z - other (specify)

Other:

| Sample Identification | Sample Date | Sample Time | Sample Type (C=comp, G=grab) | Matrix (W=water, S=solid, O=waste/oli, BT=Tissue, A=Air) | Field Filtered Sample (Yes or No) | Perform MS/MSD (Yes or No) | PFC_IDA - (MOD) 7 PFAS Compounds | 637_DW - 14 PFAS Drinking Water List | 637_DW - 14 PFAS Drinking Water List | Total Number of containers | Special Instructions/Note: |
|-----------------------|-------------|-------------|------------------------------|----------------------------------------------------------|-----------------------------------|----------------------------|----------------------------------|--------------------------------------|--------------------------------------|----------------------------|----------------------------|
|                       |             |             |                              |                                                          |                                   |                            | N                                | Y                                    | N                                    |                            |                            |

### Possible Hazard Identification

☐ Non-Hazard ☐ Flammable ☐ Skin Irritant ☐ Poison B ☐ Unknown ☐ Radiological

Deliverable Requested: I, II, III, IV, Other (specify)

EQUAS 7 FILE ASP-B

### Sample Disposal (A fee may be assessed if samples are retained longer than 1 month)

☐ Return To Client ☐ Disposal By Lab ☐ Archive For Months

| Question                                                                              | Answer | Comment |
|---------------------------------------------------------------------------------------|--------|---------|
| The cooler's custody seal is intact.                                                  | True   |         |
| The cooler or samples do not appear to have been compromised or tampered with.        | True   |         |
| Samples were received on ice.                                                         | True   |         |
| Cooler Temperature is acceptable ( $\leq 6^{\circ}\text{C}$ , not frozen).            | True   |         |
| Cooler Temperature is recorded.                                                       | True   |         |
| WV: Container Temperature is acceptable ( $\leq 6^{\circ}\text{C}$ , not frozen).     | N/A    |         |
| WV: Container Temperature is recorded.                                                | N/A    |         |
| COC is present.                                                                       | True   |         |
| COC is filled out in ink and legible.                                                 | True   |         |
| COC is filled out with all pertinent information.                                     | True   |         |
| There are no discrepancies between the containers received and the COC.               | True   |         |
| Sample containers have legible labels.                                                | True   |         |
| Containers are not broken or leaking.                                                 | True   |         |
| Sample collection date/times are provided.                                            | True   |         |
| Appropriate sample containers are used.                                               | True   |         |
| Sample bottles are completely filled.                                                 | True   |         |
| There is sufficient vol. for all requested analyses.                                  | True   |         |
| Is the Field Sampler's name present on COC?                                           | True   |         |
| Sample custody seals are intact.                                                      | True   |         |
| VOA sample vials do not have headspace $> 6\text{mm}$ in diameter (none, if from WV)? | N/A    |         |
